Recent Developments

Despite the deterioration of global bitcoin market and the fall of bitcoin price, we believe that minimizing total mining costs is key to future success and have continued our research and development towards innovative liquid cooling technologies, to expand our capabilities and advantages as an energy-saving clean bitcoin mining operator. We have introduced two new liquid cooling bitcoin mining infrastructure products in September 2022 and received UL listing certification for US and Canada for our current product. We also updated our SAIHUB App to support the rapidly growing Bitcoin Lighting Network. We hosted and streamed the first Bitcoin Heat Day in August and sponsored the 2022 Cryptocurrency Research Conference in September 2022.

Launch of New Products

- With our continuing efforts on product research and development, we added two new infrastructure products TANKBOX and RACKBOX, to our current SAIHUB BOX product line in September 2022.
- TANKBOX is our new immersion cooling outdoor container product, which is compatible with all air-cooled mining machines on the market. Equipped with heat recovery system, TANKBOX can accommodate 72 to 144 mining machines in outdoor environments and provide hot water of up to 50 degrees Celsius. TANKBOX is expected to be officially launched to market by end of 2022.
- RACKBOX is our new outdoor container product, which can accommodate 90 units of Whatsminer's latest liquid-cooling miners. Equipped with heat recovery system, RACKBOX is capable of recovering waste heat and providing hot water of up to 60 degrees Celsius. RACKBOX is expected to be launched in the first quarter of 2023.

The revenue from sales of products was \$3.7 million and \$6.9 million for the six months ended June 30, 2022 and 2021, respectively, having decreased by \$3.2 million, or 47%. The decrease was mainly associated with bitcoin price fall in the first half of 2022, which led to a shrink in bitcoin miners' trading business.

Hosting Service. Hosting services includes all services related to hosting (including keeping and running the mining machines) and daily maintenance of servers to customers. Our hosting revenue for the six months ended June 30, 2022, and June 30, 2021, were derived from our hosting operations in Kazakhstan. The revenues were \$ 1.0 million and \$1.1 million, respectively, for the six months ended June 20, 2022 and 2021.

Mining Pool. Mining pool income includes revenues from the Company's self-owned sai.plus mining pool, representing mining rewards from sai.plus mining pool. The Company allocates mining rewards to each pool participant, mainly the hosting clients, net of the pool operator fees based on the sharing mechanism predetermined and records as cost of mining pool revenue. Our mining pool revenues were \$0.6 million and nil, respectively, for the six months ended June 30, 2022, and June 30, 2021.

<u>Mining Revenue</u>. Mining revenues represent mining rewards generated from the Company's self-owned mining machines. The mining revenues are mainly derived from our operations in Mexico beginning in 2022. Our mining revenue was \$0.03 and nil, respectively for the six months ended June 30, 2022, and June 30, 2021.

Cost of Revenues

Cost of revenues primarily included the cost for the purchase of high-performance digital asset mining machines, costs incurred for our self-mining activities, and the direct costs incurred for the provision of hosting services and mining rewards allocated to each provider of pool participant in exchange for their computing power contributed to the mining pool.

The cost of revenues decreased by \$2.1 million or 30%, from \$6.8 million for the six months ended June 30, 2021, to \$4.8 million for the six months ended June 30, 2022. The decrease in cost of revenues was basically in line with the decrease in revenue.

Our gross profit decreased by \$0.54 million, from \$1.14 million for the six months ended June 30, 2021, to gross profit of \$0.60 million for six months ended June 30, 2022. Gross profit as a percentage of revenue ("gross margin") was 14% and 11% for the six months ended June 30, 2021, and 2022, respectively. The decrease of gross margin was mainly due to the decrease in margin of sales of products. Our selling price dropped because of the fall in bitcoin price.

Our selling and marketing expenses primarily consisted of staff costs and travelling expenses to participate in marketing activities. Selling and marketing expenses increased by \$0.12 million from \$0.12 million for the six months ended June 30, 2021, to \$0.24 million for the six months ended June 30, 2022.
